

**Interferometric patterns of optical surfaces, flat and spherical made  
by Zygo Interferometer (632.8 nm HeNe laser light source)**

**1 and 2 are of the same surface but with slightly different tilt**

**1 and 2 are of the same surface but with slightly different tilt**

Interferograms made by Zygo GPI XP/D interferometer (632.8 nm HeNe laser light source) showing the Interference Pattern and computerized measured results

**Additional Interferometric patterns of optical surfaces, flat and spherical made by Zygo Interferometer (632.8 nm HeNe laser light source)**
